

# WORLD'S FINEST ENGINEERS SIGMA PHI DELTA

## OUR HISTORY

Sigma Phi Delta was founded on April 11, 1924 at the University of Southern California. Since that time, Sigma Phi Delta has expanded from the United States, to Canada and the rest of the world.

## BROTHERHOOD

Sigma Phi Delta is a brotherhood of individuals with similar goals and expectations. It is a brotherhood based not on the incidence of birth, but by choice. Because of this, we form strong ties of friendship that last a lifetime. It is this bond that we consider most important and invaluable.

## WHY SIG PHI?

The benefits of Sigma Phi Delta include: a great atmosphere for learning the rigors of engineering; a close bond of brotherhood beyond the years of graduation; thousands of engineering alumni worldwide; strong leaders and men of principle; and most of all, the men of Sigma Phi Delta incorporate the most exclusive fraternity on any campus, a fraternity of engineers.

## ATHLETICS

Our chapters are very active in intramural sports as well as being an active participant in Greek Olympics. The men of Sigma Phi Delta always compete to win and many chapters have taken home the honor of first place in many athletic championships.

## PROFESSIONAL

Membership is exclusive to students of the College of Engineering and related engineering programs. With brothers of all ages and similar curricula, members are able to tutor and offer advice to each other.

## SOCIAL

Sigma Phi Delta's chapters enjoy the best social functions on any campus. Each chapter holds their own unique social events, such as formal dances, Homecoming, brotherhood events, alumni gatherings, or float building. Furthermore, each chapter regularly holds mixers with sororities.
